

Notice to Plan members

The *Quebec Supplemental Pension Plans Act (SPPA)* requires that the Pension Committee informs all plan members of all amendments made to the *Régime de retraite du personnel des CPE et des garderies privées conventionnées du Québec (Plan)* before registration.

Since January 1, 2019, the Plan has two components, the Past component for credited years of service before that date and the Current component for credited years of service after that date. The terms and conditions applicable to benefit payments are currently the same for both components. These terms and conditions represent:

- Benefit payment mode applicable to plan members and beneficiaries, such as the election between a transfer value or a deferred pension, and
- Benefit options selected by members such as the optional form of pension upon retirement.

Following the changes made to the *Règlement concernant le financement des régimes de retraite des secteurs municipal et universitaire (Regulation)* coming into force on February 22, 2024, in order to continue to apply the same terms and conditions to benefit payments for both components, it must now be specified in the Plan provisions.

Therefore, the Pension Committee informs the members that the Plan is amended to make this change in order to comply with the Regulation.

This amendment takes effect retroactively on February 22, 2024.

You may consult the amendments or the Plan provisions on the My retirement Website at rrcpegq.hroffice.com, with your employer or receive a copy, free of charge, by sending a request to the following address:
